Cycle 6 Summary Totals for First Ladies National Historic Site

Cycle 6 Route Totals

	NPS Maintained	Concessionaire Maintained	Park Totals
Paved Roads, Data Collection Vehicle Rated (Miles)	0	0	0
Paved Roads, Manually Rated Length (Miles)	0	0	0
Paved Roads, Manually Rated Area (Sq. Ft.)	0	0	0
Unpaved Roads (Miles)	0	0	0
Paved Parking (Sq. Ft.)	6,152	0	6,152
Unpaved Parking (Sq. Ft.)	0	0	0

Cycle 6 Lane Miles and Overall Pavement Condition

	Lanes Miles*	Pavement Condition Ratina**
Data Collection Vehicle Routes	0	N/A
Manually Rated Roads	0	N/A
Parking Areas	0.11	90

 $^{^{*}}$ Equivalent Lane Miles are calculated by route using the following equations:

- DCV and MRLs = $(PAVE_WIDTH \times PAVED_MI) / 11$ foot lane

- MRPs and PKGs = $SQ_FEET / 5280 / 11$ foot lane

-Excellent = 97

-Good = 90

-Fair = 73

^{**}Parking and Manually Rated Routes are assigned the following PCR values based on the type of observed distresses:

General Park Road Functional Classification (FC) Table

FC	Type	User	Description	Route	
		Access		Numbers	
1	Principal Park Road	Public	Roads which constitute the main access route, circulatory tour, or thoroughfare for park visitors. Rural Parkways	0001 - 0009	
	Rural Parkway		(e.g. Natchez Trace) are numbered 0001 - 0009.	0010 - 0099	
2	Connector	Public	Roads which provide access within a park to areas of scenic, scientific, recreational or cultural interest, such as	0100 - 0199	
	Park Road		overlooks, campgrounds, etc.		
3	Special Purpose	Public	Roads which provide circulation within public areas, such as campgrounds, picnic areas, visitor center complexes,	0200 - 0299	
	Park Road		concessionaire facilities, etc. These roads generally serve low-speed traffic and are often designed for one-way		
			circulation.		
4	Primitive	Public	Roads which provide circulation through remote areas and/or access to primitive campgrounds and undeveloped areas.	0200 - 0299	
	Park Road		These roads frequently have no minimum design standards and their use may be limited to specially equipped vehicles.		
			Note: Functional Classes 3 and 4 have the same route numbers because, historically, they were numbered similarly.		
5	Administrative	Public	All public roads intended for access to administrative developments or structures such as park offices, employee	0400 - 0499	
	Park Road		quarters, or utility areas.		
6	Administrative	Nonpublic	All roads normally closed to the public, including patrol roads, truck trails, and other similar roads. Note: Functional	0400 - 0499	
	Park Road		Classes 5 and 6 have the same route numbers because historically they were numbered similarly and often there is little		
	(Restricted Access)		distinction between these routes. For example, because utility areas and employee housing are often closed to the		
7	Urban Public		These facilities serve high volumes of park and non-park related traffic and are restricted, limited-access facilities in an	0001 - 0009	
·	Parkway		urban area. This category of roads primarily encompasses the major parkways which serve as gateways to our		
	raikway		nation's capital. Other major park roads or portions thereof, however, may be included in this category.		
8	City Street	Public	City streets are usually extensions of the adjoining street system that are owned and maintained by the National Park	0600 - 0699	
			Service. The construction and/or reconstruction should conform with accepted local engineering practice and local		
			conditions.		
N/A	Non-NPS	Public	State, County, or City owned roads which border, traverse, or provide access to Park Facilities or Locations. Non-NPS	5000 - 5999	
	Roads		roads are not assigned functional classes and are driven for GPS and Video Log only.

Types
AS - Asphaltic Concrete Pavement
BR - Brick or Pavers Road Bed
CB - Cobble Stone Road Bed
CO - Portland Cement Concrete Pavemen
GR - Gravel Road Bed
NV - Native or Dirt Material Road Bed

Surface

A park road system contains those roads within or giving access to a park or other unit of the NPS which are administered by the NPS, or by the Service in cooperation with other agencies. The assignment of a functional classification (FC) to a park road is not based on traffic volumes or design speed, but on the intended use or function of that road or route.

The historic route numbering system also included a 300 series for interpretive roads, and a 500 series for one-way roads. There are approximately 250 roads nationwide which are designated by the 300 and 500 series. The numbers for these roads will be maintained for reporting consistency. However, since these interpretive and one-way routes are not as clearly
